## **CHAIRMAN'S REPORT**

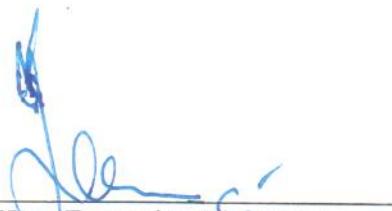

Home financing plays a crucial role as catalyst to facilitate development in the infrastructure sector. Improvement to the welfare of our people requires a holistic approach with the provision of electricity, telephone, roads just to mention a few services besides the actual physical shelter. The Corporation continues to play that pivotal role in providing financial assistance readily accessible for most people and in particular those who are not eligible for loans from commercial banks.

Some 80% of the Corporation lending goes to projects on customary lands. This provides the incentives for people to undertake home developments in their village communities. The increasing demand for loans from the public indicates the huge potential the Corporation has in terms of its lending business. Conversely, its niche market has flourished and persistently accommodates the need for shelters of the low-income earners. However, the Corporation continues trying to strike a balance to ensure viability of business and meeting its mandated obligation. To that effect, a Net profit of \$397,906 was reached at 30 June2011 and a milestone has been achieved by the Corporation when it paid its first ever dividend to the Government of \$390,610 since it was established.

Financial assistance depends largely on one's capacity to repay and with employing the Central Bank of Samoa's credit line facility, the Corporation's lending capability continues to strengthen. The passing of the Housing Corporation Act 2010 further gives assurance of its business viability. The arrears problem however creates unnecessary expense and denies timely assistance to the public. There is no short-term solution to this as people struggle against all sorts of pressure on limited earnings. The many problems encountered in debt collection indicate changes in circumstances and more obviously the many social and traditional obligations people are pressured to meet. I am confident however the arrears problem will improve over time with better budgeting and once people are confident to prioritise the use of limited earnings.

The Board of Directors, management and staff continue to undertake trainings to further substantiate good governance and accountability in the execution of duties and responsibilities of the Corporation.

I wish to thank all the stakeholders for their support and cooperation throughout the year. The Directors, Management and staff of the Corporation have all contributed tremendously to another successful year.

Hon. Faumuina Tiatia F. Liuga  
**CHAIRMAN**

## **CHIEF EXECUTIVE OFFICER'S REPORT**

The Corporation as in the past continued to be guided by its long term vision of providing affordable homes for all the Samoan people on modest income. It is also mindful of the need to be successful as a business whilst operating in a risk prone sector of the housing market. Despite the challenge on the Corporation to improve profitability and efficiency while meeting head on the housing requirements of the low income earners, it has successfully delivered its service for enhancement of living standards regardless the pressure on the economy as to the effects of the global financial crisis.

Total approvals amounted to \$8.55 million for 722 clients indicating increases of 22% and 2% by amount and number respectively in comparison to 2010 as the effect of meeting the public. Simultaneously, the Corporation increased its mortgaged base clients to offset inevitable risks on unsecured portfolio by increasing its loan ceiling. With streamlining the pipeline, loans applications are dispensed as soon as appropriate information is made available for decision-making. In sourcing the demand for loans, the Corporation utilized the Central Bank of Samoa credit line facility on concessional borrowing terms.

Notwithstanding the constant challenge in responding to risks derived from the nonperforming unsecured portfolio, the Corporation persistently maintained its focus on maximizing profit aiming at improving its Return on Equity (ROE) and financial capacity to sustain viability. Cash collection remained on the increase, an impact of concerted effort on recovery work. The loan servicing portfolio also continued its uninterrupted growth reaching a new high of \$21,701.448 at 30 June 2011. Net Profit of \$397,906 recorded a 2% increase from 2010 with the ROE being maintained at 3%. In compliance with the governing legislation, the Corporation paid to the government of Samoa the first ever dividend of \$390,160 derived from 50% of net profits for the past three consecutive years.

Housing Corporation Act 2010 (review of Housing Corporation 1989 Act) was passed by Parliament and enacted on October 2010. This has broadened the scope of the Corporation since its establishment.

The Corporation has persistently up-skilled its personnel, enhanced risk assessment and management capability, improved operational efficiency and further developed recovery work strategies. Affiliation with international financial institutions further improved exposure and caliber of its personnel and more importantly the Corporation's status globally.

I would like to thank the Government, Chairman, Board of Directors and staff for their support and assistance which has reflected in a successful and productive year.

## AUDIT OFFICE

### REPORT OF THE AUDIT OFFICE

#### TO THE BOARD OF DIRECTORS – SAMOA HOUSING CORPORATION

We have audited the accompanying financial statements of the Samoa Housing Corporation, which comprise the statement of financial position as at 30 June 2011, the statement of financial performance, the statement of changes in equity and cash flow statement for the year then ended, and a summary of significant accounting policies and other explanatory notes.

#### Responsibility for the Financial Statements

The Board of Directors is responsible for the preparation and fair presentation of these financial statements in accordance with International Financial Reporting Standards and also the Public Bodies (Performance and Accountability) Act 2001. This responsibility includes: designing, implementing and maintaining internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

#### Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Board of Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### Opinion

In our opinion, the financial statements give a true and fair view of the financial position of the Samoa Housing Corporation as at 30 June 2011, and of its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards, and also give in the prescribed manner the information required by the Public Bodies (Performance & Accountability) Act 2001.

SAMOA HOUSING CORPORATION  
NOTES TO FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 30 JUNE 2011

---

## **1. General Information**

The Housing Corporation was established on May 1990 by an act of the legislature (Housing Corporation of Samoa Act 1989). The new legislation, Public Bodies Act 2001 overrules the initial Act. However, review of the Housing Corporation Act 1989 has been approved by Parliament in 2010 as Housing Corporation's Act 2010 and is now enacted. The main purpose of the Corporation is to improve housing and living conditions of lower moderate income persons and families by lending monies on mortgage or other securities to assist to build, extend, renovate or purchase land for the purpose of building a home thereon.

The Corporation's operations are directed by a 8 - member board of directors. The Board consists of a Chairman (Minister of Finance), 4 members who serve as ex-officio (the Chief Executive Officers of Government Ministries i.e., Ministry of Finance, Attorney General, Ministry of Natural Resources & Environment and Ministry of Works, Transport & Infrastructure), 2 appointed members from the public and the Chief Executive Officer of the Corporation.

## **2. Statement of Significant Accounting Policies**

Set out below is a summary of significant accounting policies adopted by the corporation in the preparation of its financial statements.

### **a) Statement of compliance**

These financial statements have been prepared in accordance with the requirements of the Public Finance Management Act 2001 which requires the adoption of International Financial Reporting Standards issued by the International Accounting Standards Board (IASB).

In accordance with section 91 of the Public Finance Management Act 2001, Samoa Housing Corporation is designated as a Public Body, therefore it must also satisfy the reporting requirements under the Public Bodies (Performance & Accountability) Act 2001.

### **b) Basis of preparation**

The financial statements are prepared on the basis of historical costs. Reporting financial statements in accordance with IFRS requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period and future periods.

### **c) Comparative information**

Comparative information has been restated where necessary to achieve consistency in disclosure with current financial year amounts.

### **d) Functional and presentation currency**

The financial statements are presented in Samoan Tala (SAT\$), which is the corporation's functional currency and all values presented in Samoan Tala have not been rounded.

### **e) Foreign currency**

Transactions in foreign currency are translated to Samoan tala at the foreign exchange rate ruling at the date of the transaction. Amounts receivable and payable denominated in foreign currencies are translated at the rates of exchange ruling at balance sheet date. Foreign exchange differences arising on translation are recognised in the income statement.

### **f) Bad and provision for doubtful loans**

The Corporation sets aside in each year at least two percent to its approvals of loans in that year as a provision against bad and doubtful debts until such time as the provisions equal ten percent of its loans portfolio, and will thereafter set aside annually such amounts as are sufficient to maintain this provision at that level. However, a yearly review of the individual loans are carried out to recognise impairment on those loans with reasonable doubt that not all the principal and interest can be recovered in accordance with terms and conditions of the loan agreement. Bad debts are written off against the provision for doubtful debts in the period in which they are identified as unrecoverable.

**2. Statement of Significant Accounting Policies (continued)**

**g) Revenue recognition**

*Interest income*

Interest income on loans and investments are recognised on accruals basis. Interest on impaired loans is recognised only when income is received.

*Loan fees*

Loan fees are recorded when they are earned. Fees on impaired loans are recognised only when income is received.

**h) Cash and cash equivalents**

Cash and cash equivalents in the statement of financial position comprise cash at bank and on hand and short term deposits with maturities less than one year.

**i) Accounts and other receivables**

Accounts and other receivables are recorded at fair value after providing for bad and doubtful debts. At the end of each reporting period, the carrying amounts of accounts and other receivables are reviewed to determine whether there is any objective evidence that the amounts are not recoverable. If so, an impairment loss is recognised immediately in the statement of financial performance.

**j) Fair value estimation**

Fair value is determined as follows:

- Cash assets are carried at fair value;
- Receivables are carried at book value, which is the best estimate of fair value as they are settled within a short period;
- Loans are net of provisions for impairment.

**k) Financial assets**

The Corporation classifies its financial assets in the following categories; loans & receivables and available for sale. The classification depends on the purpose for which the financial assets were acquired. Management determines the classification of its financial assets at initial recognition.

*Loans and receivables*

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted on an active market. They are included in current assets, except for maturities greater than 12 months after the balance sheet date which are classified as non-current assets.

*Available-for-sale financial assets*

Available-for-sale financial assets are non-derivatives that are either designated in this category or not categorised in any of the other categories. They are included in non-current assets unless management intends to dispose of the investment within 12 months of the balance sheet date.

**l) Provisions**

A provision is recognised in the balance sheet when the corporation has a present legal or constructive obligation as a result of past event, and it is probable that an outflow of economic benefits will be required to settle the obligation.

**m) Accounts and other payables**

Accounts payable and other payables are recognised at cost and represent liabilities for goods and services provided to the corporation before the end of the financial year that are unpaid and arise when the corporation becomes obliged to make future payments in respect of the purchase of these goods and services.

**n) Property, plant and equipment**

Items of property, plant and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses. Depreciation is charged so as to allocate the cost of assets less their residual values over their

**o) Dividends**

Dividends are recognised as a liability in the period in which they are due and payable pursuant to the Public Bodies (Performance & Accountability) Regulations 2002.

**p) Borrowing costs**

All borrowing costs are recognised in the statement of financial performance in the period in which they are incurred.

**r) Employee benefits**

The corporation contributes towards the Samoa National Provident Fund, a defined contribution plan in accordance with local legislation and to which it has no commitment beyond the payment of contribution. Obligations for contributions to the defined contribution plan are recognised immediately in the statement of financial performance.

Liabilities for employees' entitlements to salaries and wages, annual leave and other current employee entitlements (that are expected to be paid within twelve months) are accrued at undiscounted amounts, and calculated at amounts expected to be paid as at reporting date.

The revaluation (land and building) was carried out by Kaisara Real Estate Management an independent licensed valuer in February 2010. Market value approach i.e. sales comparison, income and depreciated replacement cost were used to determine the fair values of the above items. The cost method is used to account for revaluation of assets, where the original cost of assets less their accumulated depreciation and then determine whether there is an increase or decrease in assets revalued amounts from their carrying amounts. The above surplus is recognised in the Asset Revaluation Reserve under Capital and Reserves.

**12. Dividend Payable**

The Public Bodies (Performance and Accountability) Regulations 2002 Schedule 6 paragraph 6.2.1(d) specifies that the annual report shall include "the dividend payable by the Public Body to the State for the financial year to which the report relates". Furthermore, Schedule 7 (paragraph 25.2) requires "a company to pay dividend in accordance with the Government's dividend policy as advised by the Financial Secretary from time to time". In May 2005, the Chief Executive Officer, Ministry of Finance advised that Public Trading Bodies would be accountable for a dividend of 50% of Net profit after tax. Consequently as at 30 June 2011, Samoa Housing Corporation has a liability for dividend payable at 50% of Net Profit After Tax, less dividend payments made.

**20. Financial Instruments**

This section outlines the Corporation's exposure to financial risks and describes the methods used by management to control and monitor these risks. The major risks are credit risk, liquidity risk and market risk of interest rate and foreign exchange risk.

**a) Credit risk management**

Credit risk refers to the risk that a customer will default on its contractual obligations resulting in financial loss to the Corporation.

The Corporation has adopted a policy of only dealing with creditworthy customers and obtaining sufficient collateral where appropriate, as a means of mitigating the risks of financial loss from defaults. The Corporation exposure and the credit ratings of its customers are continuously monitored and the aggregate value of transactions concluded is spread amongst approved customers. Credit risk is closely monitored by the Lending Division and Legal and Recoveries Division through regular independent reviews designed to test the quality of credit exposures and to ensure compliance with Corporation policies.

**b) Liquidity risk management**

Ultimate responsibility for liquidity risk management rests with the board of directors, which has built an appropriate liquidity risk management framework for the management of the Corporation's short, medium and long-term funding and liquidity management requirements.

The Corporation manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities by continuously monitoring forecast and cash flows and matching the maturity profiles of financial assets and liabilities.
